

## ***EAO's Certificate in Implant-based Therapy***

*“The EAO’s Certificate in Implant-based Therapy has been developed to raise standards of oral implant-based therapy across Europe. Obtaining the certificate is a prestigious achievement that demonstrates the holder is competent to perform basic and advanced implant treatments.”*

EAO – European Association for Osseointegration

*“The EAO’s Certificate in Implant-based Therapy is the only Europe-wide standardised assessment of skills and expertise within the field of implant-based therapy. It supports the EAO’s core aim of improving standards of education, clinical practice and patient care in implant-based therapy. Certification provides a way of recognising the skills and expertise of dentists practising in this field.”* EAO – European Association for Osseointegration
